**“Every child is an artist. The problem is how to remain an artist once we grow up.” ~ Pablo Picasso**

**What is wet-on-wet watercolor painting?** Wet-on-wet watercolor painting is applying a wet (watery) paint to a wet surface (such as a pre-moistened paper). Since wet paint is applied to wet paint, the results of this technique can be unpredictable. The process can be relaxing, fun, exciting, or scary – depending on where you reside in your emotional life. When you allow yourself to let go of preconceived expectations, the results can be freeing.
